

# Blair Middle School Environmental Club

Be part of the solution,  
stop the pollution!

# PSA Video

Blair Middle School

Norfolk, VA

# Problem

## Problem 1

**We noticed lots of trash outside of our school, on the roads, sidewalks, and in the grass.**

## Problem 2

**We care about our watershed. and don't want to clog our storm drains with trash and litter.**

## Problem 3

**We asked for trash cans to be placed in front of the school but still have not received them.**

**Students identified the lack of outdoor trash cans was a possible reason for the high amounts of litter around school grounds. The addition of trash cans around the entrances could hopefully prevent the amount of litter getting into our local watershed.**

# Actions

- The Environmental Club cleans up trash and litter around the school and surrounding neighborhood twice a month.
- We joined Keep Norfolk Beautiful Green Bucket Brigade and participate in Norfolk's Adopt-A-Spot.

**We cleaned  
up over 273  
pounds of  
trash this  
year!**

- *There is a wide plethora of products that have been collected, ranging from:*

**plastic bags**

**glass bottles**

**cigarette butts**

**styrofoam**

**cans**

**fake nails**

**synthetic hair**

**football**

**CD**

**books**

**metal**

**lime card**

**bike helmet**

**paper products**

**bottle caps**

**masks**

**pencils**

**candy**

**wrappers**

**food items**

**plastic**

**products**

**cloth/clothing  
items**

**chromebook**

**chip bags**

**lighter**

# Students in Action

# TREX Recycle

**In addition to litter clean-up students and staff, collected 138 lbs of plastic material for TREX Recycling Program. All collections have been dropped off at Harris Teeter and Food Lion.**

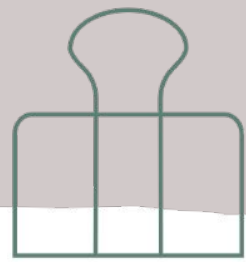

# Actions

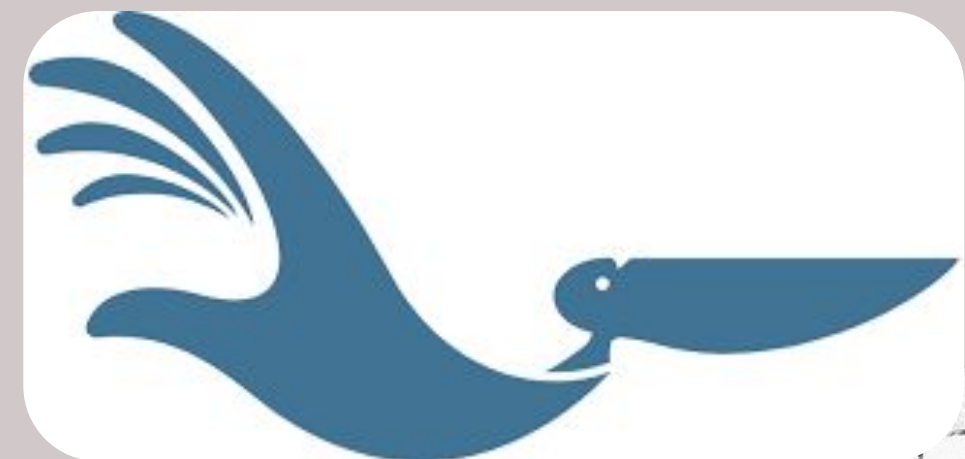

**Representatives from Blair's Environmental Club will host a booth at the Ghent Farmer's Market on April 21, 2023. We will showcase and inform the community that our collaborative small actions make a BIG difference in protecting our watersheds.**

**The  
Environmental  
Club will continue  
our efforts to clean  
up our watershed.**

Go Green!

it was a happy day.
